In Case of an Emergency
Within resort boundaries call 970.726.1480. If outside resort boundaries or no answer, call 911.

Unless noted otherwise, all trails are for biking downhill only.
Trails noted as two-way traffic typically involve some uphill sections in both directions. Be aware that uphill riding is allowed on easiest and intermediate terrain during authorized special events, outside of operating hours and after Bike Patrol does their sweep - use caution in both directions! Expect to find jumps and features on all trails.

Trails or lifts may be temporarily closed due to Mountain Pine Beetle mitigation, special events, construction, trail maintenance or trail conditions. Please observe all posted signs and closures. Trails outside resort boundaries are two-way traffic and may allow motorized vehicles.

Degree of difficulty ratings and symbols are relative to Winter Park Resort only. Trail riders may download with their bikes on the Zephyr Express chairlift.

This map includes portions of trails that are adjacent to Winter Park Resort but outside resort boundaries. Winter Park Resort provides bike patrol support within Winter Park Resort boundaries only.

MOUNTAIN BIKE CHECKLIST

The trails of Trestle Bike Park are rough and demanding on both the bike and the body. Before riding always inspect your equipment or have it checked by a qualified bike mechanic.

1. Ensure your helmet is in good shape and properly adjusted.
2. Inspect bike frame for cracks, damaged or dented areas.
3. Ensure you have sufficient brake pads to stop your bike while descending.
4. Front and rear axles (skewers) should be tight.
5. Headset and stem must be secure with no looseness or play.
6. Check that your tires are in good condition, with no tears or cuts including in the sidewall.
7. Handle bar and handle grips must be tight and unable to spin. Seat and seat post need to be fastened securely.

IF YOU ARE NOT COMPLETELY FAMILIAR WITH YOUR BIKE AND ITS VARIOUS COMPONENTS, THESE CHECKLIST ITEMS, OR IF YOU HAVE ANY DOUBT AS TO YOUR BIKE'S CONDITION, WE HIGHLY RECOMMEND YOU CHECK WITH A QUALIFIED BIKE MECHANIC FOR FURTHER ADVICE.

WINTER PARK MOUNTAIN BIKERS RESPONSIBILITY CODE

Common sense and personal awareness can help reduce some elements of mountain biking risks. Always be courteous.

1. Ride under control within your ability and in such a manner that you can stop or avoid other people and objects.
2. Keep off all closed trails and closed areas; stay on marked trails; don't cut switchbacks.
3. Read and obey all signs and warnings.
4. Inspect features and jumps before using or attempting.
5. Do not stop where you obstruct a trail or are not visible from above or to other riders.
6. Stop and look both ways before crossing mountain roads on trails.
7. Slow or stop as necessary when overtaking other riders. Anticipate other users at corners and blind spots. Slower riders yield to faster riders as soon as is safe to do so.
8. Look uphill and yield to other riders when entering a trail or starting downhill.
9. Helmets are required while riding on Winter Park Resort trails.
10. Identify yourself to the Bike Patrol if you are involved in or are a witness to a collision or accident.
11. Don't use chairlifts or terrain if you are under the influence of alcohol or drugs.
12. You should have sufficient physical dexterity, ability and knowledge to safely load, ride and unload lifts, and to ride the terrain and features you choose.
13. Make sure your equipment is in proper working order. Check entire bike daily.
14. Respect Winter Park Resort, its employees, other guests, property and your National Forest.

KNOW THE CODE — BE SAFETY CONSCIOUS. IT IS YOUR RESPONSIBILITY.
PARK PRIVILEGES REVOKED FOR BREACH OF MBR CODE.

TRESTLE BIKE PARK PARTNERS: GIANT KALI FOX MAXXIS TIRES

RIDE SMART

SLOW DOWN BEFORE YOU SPEED UP. Crashes can happen on your first lap. Ride the trail multiple times to get familiar with the features and equipment you're on so you can more confidently increase your skills without exceeding your limits. Jumping skills are required for freeride trails.

- **PRE-RIDE** — Warm up the brain and body and inspect the trail at low speed.
- **RE-RIDE** — Lap the trail a few times and get to know the flow of the features.
- **FREE-RIDE** — Start small and work your way up to faster speeds and larger features.

ENVIRONMENTAL INFORMATION
Our Connexion program is designed to inform, involve and educate resort employees, guests and the community about the following environmental initiatives being implemented at Winter Park Resort: renewable resources, energy conservation, pine beetle mitigation and recycling. If you would like more information, please stop by the Guest Services Depot, or email connexion@winterparkresort.com

Due to fire danger and health, smoking is prohibited both on-mountain, on chairlifts, in lift lines and in Winter Park Resort facilities.

CAUTION! FALLING TREES AND LIMBS.
Not all trails are checked or cleared on a continual basis. Notify Bike Patrol if you see an obstacle or hazard on the trail. Look ahead and ride with a partner

TRESTLE® BIKE PARK SHOP / TRESTLE PRO SHOP

GET YOUR PASS, BIKE PARK INFO AND GEAR. THE PARK STARTS HERE.

Whatever your needs, get top-of-the-line equipment and accessories at the only shop in Winter Park that caters to the gravity-fueled rider. Located at the base of Trestle Bike Park, we have the largest selection of downhill rental bikes in the USA with over 200 bikes available for rent or demo. We service our fleet nightly and will custom-fit a bike to your size and riding style. Ride out of the shop and onto the lift.

BIKE RENTALS
Our bikes are built for every type of rider in our bike park. With the largest downhill fleet in the USA, no one else offers such specific gear to make your experience exciting and enjoyable.
NEW! Introducing the Giant Glory 27.5.2 as the Downhill Rental Bike this season!

DEMO, WORLD CUP & ENDURO RENTALS
Trestle Bike Park Shop has teamed up with the best brands in the industry to offer you a chance to ride the latest equipment and choose from over 80 bikes and 17 models, from World Cup inspired downhill pro bikes to light-weight, long-travel bike park specialty bikes. Try the newest models from brands like Scott, Specialized, Trek, Intense, Transition and Giant Norco. A demo package includes custom fitting and suspension adjustment so you get the most out of your demo experience. Try up to three different bikes when you rent a full day package.

SPECIALIZED · transition · TREK · commencal · SCOTT · INTENSE · GIANT · NORCO

2016 GIANT GLORY 27.5
If you are looking for a high-performance downhill bike in a value based package then look no further. With 203mm of fully active Maestro suspension and a lightweight, super-strong ALUXX SL frame featuring a co-pivot shock mount, the Glory 27.5 has been tested and proven by the Giant Factory Off-Road race team.
Available at Trestle Bike Park Shop

2016 GIANT REIGN 27.5
If you are looking to experience the more moderate sections of the bike park along with the flexibility to climb with efficiency the 2016 Giant Reign is for you. Featuring 160mm of travel, an ALUXX SL aluminum frameset and cutting edge 27.5 wheel technologies, the Reign shines when the trail gets rough or when you need to climb with ease.
Available at Trestle Pro Shop

2016 GIANT GLORY ADVANCED
If you are looking to fine tune and further your downhill skills the Giant Glory Advanced is the bike for you. This all-new DH racer was designed from the get-go to break new ground in stiffness, weight and all-around performance. It features 203mm of fully active Maestro suspension on a superlight, stiff and strong composite mainframe!
Available at Trestle Bike Park Shop

PROTECTION
All rentals include full face Kali helmets and Fox body armor. Helmets, padding and body armor are also available for rent or purchase.

GEAR
Get the latest gear from Fox, Kali, Five Ten, Dakine, Royal and Troy Lee. We can equip the novice to advanced rider with jerseys and shorts, casual wear, hydration, gloves, armor and helmets. Plus, we are the only place offering authentic Trestle Bike Park logo gear.

MOUNTAIN WARNINGS AND INFORMATION

Lightning and Thunderstorms – Inclement weather such as afternoon thunderstorms are common in the mountains. Seek shelter when you see a storm developing. Keep off ridgetops and stay clear of lift houses, lift towers, power lines, open ski runs, the tallest tree in the vicinity, fences and signposts. **Fire Danger** – Due to existing fire dangers, smoking is strictly prohibited on the mountain including on chairlifts, in buildings, and on decks. **Construction Warning** – Base area and mountain improvements and repairs are made during the summer months. Vehicles and equipment may be encountered at any time. Terrain may be temporarily closed for construction. **Adequate Clothing** – Be aware, the weather changes quickly here. There is usually at least a 10 degree temperature difference from the bottom to the top of the lifts. Rugged footwear for hiking is advised. **Environment** – Please leave wildflowers for others to enjoy. The growing season is quite short at high altitude. Stay on designated hiking and biking trails and give the fragile ecosystem an opportunity to thrive. Be alert for wildlife and avoid wildlife encounters. All dogs must be on a leash at Winter Park Resort and in The Village. **Water** – Drinking water is available at The Lodge at Sunspot, Five Points, and the base of Winter Park. Don't drink from streams. Carry water with you while biking or hiking. **Alcohol/Drugs** – Anyone who is under the influence of alcohol or drugs is prohibited from riding the lifts or participating in any activities. **Altitude Hints** – There is about 50% more ultraviolet radiation at 10,000 feet than at sea level. Always wear eye and skin protection. Also, at 10,000 ft. the oxygen value is about two-thirds the value at sea level. People with respiratory or circulatory illness should consult a physician before coming to this altitude. Drink plenty of water when hiking or biking. Our high, dry air accelerates dehydration. The Lodge at Sunspot is at 10,700 ft. and trails go up from there. Take it easy! Pick up a flyer for information on altitude sickness at Guest Services or any ticket window. **Drones** – The use of drones is only permitted with the express written consent of Winter Park Resort. The use of any personal drones is strictly prohibited. **Mountain Biking** – Mountain Biking is different than road or street riding and is confined to marked unimproved or partially improved trails where rocks, dirt, loose gravel, stumps, and trees may be encountered at any time. Changing weather conditions, variations in terrain, including steepness, natural and man-made obstacles and features, and other dangers and conditions that may be encountered, such as vehicles on the mountain, are inherent risks that are part of the challenge of mountain biking. Be aware that trees live or dead can blow over during wind events. Watch for and avoid trees or branches that may have fallen on mountain bike trails. Riding trails under construction is dangerous and strictly prohibited. Expect jumps and features on most trails. Inspect each feature before using. Do not stop where you obstruct a trail or are not visible from above or to other riders. Wooden features and trails become slippery when wet. You control the degree of risk when using the jumps and features. Ride-arounds may be available. Features can change due to use, weather or maintenance. You must ride in control and within your own ability. Expect and yield to riders going at different speeds than yourself. Announce your presence when approaching other riders. You are using these premises at your own risk, and assume all risks in this activity. Helmets must be worn when riding at Winter Park Resort. Trestle Bike Park is designed for downhill biking and should be enjoyed with appropriate equipment and protective gear. Bike Park trails are designed for freeride/downhill full suspension bikes. Lower your seat and stand on the pedals for safety. Use of jumps, features and airborne maneuvers can cause equipment failure and can significantly increase the risk of serious injury. Read and obey all signs. Downhill riding on mountain roads is prohibited unless otherwise posted. Equipment allowed on mountain bike trails limited to mountain bikes and adaptive equipment unless approved by senior management. **In Case of Accident** – Report accidents at any of our designated on-mountain emergency telephones – dial 1480. If you are reporting within resort boundaries from a cellular phone, call 970.726.1480. If no one answers, call 911. Cell phone coverage may be limited.
