**Note about the 3 & 4 year old program:

This program is designed for children who are three or four years of age, toilet-trained, and do not take naps. The teaching segment starts indoors, providing a controlled environment, to help the child get started in the best way. After mastery of indoor skills, teaching moves outside to practice the skills on the snow. Once a 4 year old is able to stop without a tip aid device, for their next lesson, they will move to the 4-6 year old program “Control by Turns” at Sorensen Park. *It is recommended that ALL 4 year olds start inside!* The 3-4 year old program is a non-chair lift riding program.
