

1. Winter Park Resort Summer Terrain Access Policy 2017

Winter Park Resort (the "Resort") and the United States Forest Service ("USFS") encourage the use of public lands. The Resort is located on both public and private lands. While on Resort property (public or private lands) you must abide by the Resort rules and restrictions and should follow the Resort's recommendations. Private landowners adjacent to public lands may close or restrict access to their land and you must respect such closures and restrictions.

Warning

Access to Resort trails or property at any time, with or without a ticket/pass, is at your own risk and you assume all risks associated with your use of Resort property. Such risks include, but are not limited to, rapidly changing weather conditions, variations in trail conditions including steepness of terrain, loose rocks and gravel, slides, rocks, avalanche, falling and downed trees and limbs, tree stumps, natural and man-made obstacles and trail features, wildlife encounters, vehicles and equipment. Other dangers or conditions may also be encountered at any time.

The Resort is a mountain environment that requires your alertness, common sense and caution. Read and obey all signs. Be sure your physical condition permits you to hike, mountain bike or otherwise use Resort facilities; be aware that high elevation can accentuate existing health problems. If you become lost outside the Resort boundary, assistance and medical care may be limited and take an extended period of time and you may be held responsible for the cost of search and rescue.

Mountain bike riding involves risk of serious injury, death, and/or damage to equipment. You must ride in control and within your ability. Helmets are required while riding on Resort property. Wear appropriate protective gear. Stay on marked trails. Trail and feature conditions may change at any time due to use, maintenance or weather. Equipment allowed on mountain bike trails is limited to mountain bikes and adaptive mountain bike equipment unless approved in writing by Resort Management. No tandem bikes, kid transporters, kid carriers, kid backpacks or trailer bikes are permitted on the mountain.

Due to fire danger, smoking and campfires are strictly prohibited on the mountain at all times.

Access

The following is a summary of the Resort's Summer Terrain Access Policy. Other restrictions may exist periodically so be sure to check the Resort's website for temporary closures or restrictions before you head to the Resort.

- **When the Resort is CLOSED** including but not limited to, May 1, 2017 through June 9, 2017 and October 2, 2017 through November 14, 2017) all trails and mountain facilities are **closed to the public except for hiking and snowshoeing**. During the extended ski season at Mary Jane from April 24-30, only select terrain will be open and the remainder of the Resort will be closed. No one may access Resort property with unauthorized motorized vehicles including snowmobiles and ATVs or on skis, snowboard or on any sledding devices. Rescue and/or medical care services and avalanche control mitigation are not provided when the Resort is closed.
 - **Hiking and snowshoeing are permitted year-round**, regardless if the mountain is Open or Closed for the season, however restrictions may exist periodically. **No hiking is allowed on mountain bike trails at any time.** Ute trail is designated for hiking only. Hiking is allowed on ski trails except within closed areas. Areas may be closed for logging operations, snowmaking or snow grooming operations,

construction, and maintenance activities. Heavy equipment and vehicles are to be expected at all times and must be avoided. Anyone snowshoeing or hiking must abide by Resort policies, follow Resort employee directions and all Colorado State laws.

- **When the Resort is OPEN** during the summer for mountain biking, mountain bikers may access open trails before, during, or after operating hours. **Unless noted otherwise, all mountain bike trails are for biking downhill only.** Expect to find jumps and features on all downhill mountain biking trails. Vehicles, construction equipment, other mountain bikers and hikers, wildlife, and unmarked natural or man-made obstacles may be encountered at any time, all of which you must avoid. (Summer Season: June 11, 2017 through October 1, 2017)
 - If a Resort mountain bike trail is “**Open**” to the public, you may access the trail before or after hours in accordance with designated direction of travel as stated below. **Anyone accessing the Resort before or after operating hours does so at their own risk.** Outside of normal operating hours, if rescue, medical care or other assistance is required, the response time, if available, will be lengthy and costs may be charged to the individual.
 - If the trail has not yet been opened for the season or is currently marked “**Closed**,” you are not allowed on the trail for any reason. Safety markings and pads may not be in place, construction may be in process, features and bridges may not be ready for use, logging may be in process, trees and limbs may be blocking terrain and trail checks may not have been completed.
 - Closed trails and terrain may not be marked or signed from the top or bottom of the trail but information as to which trails are or are not open may be accessed on the Resort website or by checking with Guest Services or Bike Patrol. ***It is up to you to be sure you are using open terrain.***
 - The Resort requires **uphill** riders during normal operating hours to utilize trails marked on the Resort map as “two-way” Epic trails, or trails marked with signage as “two-way” or by utilizing mountain roads. Access is limited. This is for the safety of all Resort guests.
 - Uphill riding on Downhill specific trails is only permitted on trails rated easiest (green) or intermediate (blue) outside of normal operating hours (prior to lift opening and may not begin until one hour after lifts have closed or until Bike Patrol has completed their nightly sweep) or during authorized special events. Uphill riders must have completed their ascent of downhill specific trails prior to lifts opening for the day. No uphill traffic is permitted on advanced intermediate (blue/black), advanced (black) or expert (double black) trails at any time. All riders accessing the Resort trails outside of operating hours must be aware of two-way traffic at all times.
 - Anyone mountain biking uphill must abide by Resort policies, follow Resort employee directions, and all Colorado State laws even though you may not have a lift ticket.
 - **MOUNTAIN ROADS:** Downhill riding is NOT allowed on mountain roads except in designated areas. Temporary re-routing of downhill trails onto mountain roads may occur. Stay alert as these sections will be marked with signs. Uphill riding on mountain roads is permitted, but not recommended due to heavy vehicle traffic and the use of heavy equipment for maintenance and operations. On authorized sections all riders must stay on right side of the road and control their speed to avoid vehicles and obstacles.
 - If traveling on the mountain in the dark, fluorescent and reflective clothing material is suggested to be more visible with vehicle lights. Use a head lamp or flashlight. It is your responsibility to stay away from all vehicles and all equipment.
 - Under no circumstances may anyone access any area within the Resort where construction, lift maintenance or logging operations are taking place. Construction and lift

maintenance areas may have open trenches, vehicles moving materials and backing up with limited sight area around or behind the machine, unstable surfaces or rolling rocks, and large machinery which may start or stop at any time. Never board a chairlift while maintenance is being performed. Logging involves chainsaws, falling and downed trees and limbs, rolling rocks, log trucks, other heavy equipment, helicopters which may be flying with cables and logs hanging underneath which could fall unexpectedly, as well as other hazards.

- If your presence on Resort property presents a hazard or the Resort's staff feels that you are impeding the maintenance operations of the Resort you may be directed by Resort staff to utilize a different location. You must follow such direction.
 - It is unlawful to access closed trails by cutting through the trees from open trails or moving up into a closed trail or closed section of a trail from an open section below.
 - If you are headed uphill on a mountain bike, you may be asked to descend and exit Resort property when Bike Patrol conducts its evening sweep. You may re-enter the Resort trails/property after the mountain has been cleared by Bike Patrol.
 - Resort trails interconnect with trails outside Resort boundaries. Bike Patrol support is only provided within Resort boundaries. Trails outside Resort boundaries are two-way and may allow motorized vehicles.
 - You may not board a chairlift without a valid lift ticket as that is trespassing and theft and you will be prosecuted.
- Sledding is not permitted at the Resort at any time with the exception of the small, fenced, winter season only ZML SnowPlay Park adjacent to Zephyr Mountain Lodge. This applies to any type of device that can be used for sledding including, but not limited to, sleds, toboggans, tubes (except rentals in tube park) or saucers and other devices such as shovels, pads or trays.
 - Skiing and snowboarding are not permitted at the Resort when the Resort is not open for skiing. Refer to the Winter Park Winter Access Policy for winter activities information.
 - Dogs are prohibited on bike trails for the safety of our guests and for the safety of the dog. Dogs must remain on a leash or under voice command in all other areas of the Resort. It is the responsibility of the Owner to remove all waste. Remember that wild animals are also in the area and may kick, stomp, bite and/or eat your dog.
 - Service dogs are allowed to accompany their owner on the evening Zephyr Express Gondola in order to access the Lodge at Sunspot. Reasonable accommodation will be made to assist in transporting Service dogs in order to access other resort locations.
 - Drones and other remote controlled aircraft not permitted without the express written consent of senior management.
 - Horses and pack animals are allowed on Resort property but are not permitted on designated biking or hiking trails.
 - Disk Golf is permitted with unrestricted hours when the mountain course is open. Course may be accessed by riding the Arrow chairlift with a lift ticket or by walking or biking up the mountain road. No access by motorized vehicles. Course may be closed during competitions or for other reasons, therefore, check with Guest Services for current status. No hiking on adjacent mountain bike trails.
 - Hunting is permitted with a valid hunting license during appropriate seasons in the Vasquez Cirque area but not within the remainder of the Resort boundary. Access may be made by horse or foot but not by motorized vehicle. See posted maps for allowed locations.
 - Unauthorized vehicles, snowmobiles and ATVs are forbidden on Resort property at any time without prior approval by the Resort Management.

- No Camping on Resort property without prior approval by the Resort Management.

These rules are for your safety and the safety of the employees at the Resort. Thank you for your cooperation.

This policy is subject to change at any time. If planning to access Winter Park Resort outside of normal operating hours or other than by chairlift, check for current policies.
