

# Arrow Lift FOOT PASSENGERS

Proceed to steps to get ticket scanned. Go to yellow **WAIT HERE** sign. Remove backpacks and carry in lap. Operator will tell you when to proceed.

When told to proceed, walk quickly to the yellow **LOAD HERE**. Turn around slightly so you can see the chair approach but stay faced forward. Chair doesn't stop or slow unless requested. Sit down on the chair and raise your feet to clear the deck. Sit back, lower the bar and enjoy the ride and the view of the sliders below! Sleds are at the top so don't worry if your chair doesn't have sleds. **No horseplay!**

Approaching the top you will see signs on the towers to:

**CHECK CLOTHING**  
**PREPARE TO UNLOAD**  
**RAISE BAR**

Chair won't stop or slow unless requested or if there is a problem disembarking.

Raise your feet when approaching deck. Stand up at yellow **UNLOAD HERE** sign and walk quickly forward and to the left following the arrows getting out of the path of the chair. You will pick up your sled at the top of the Slide. Be careful on the steps. Listen to the audio instructions and read all instructional signs. Enjoy your ride and the beautiful views.
