

Zephyr Express BIKE PASSENGERS

Proceed to **WAIT HERE** sign to get ticket scanned. Follow the bike carrier as soon as it goes by and lift your front wheel.

Roll your wheel up the metal trough and into the braced section at the front. If the back wheel didn't follow in the trough, lift the back wheel into place. Do not walk off the deck, the operator will assist if it isn't properly positioned.

Walk to the yellow **LOAD HERE**. Turn around slightly so you can see the chair behind you approach but stay faced forward. Chair doesn't stop or slow unless requested. Sit down on the chair and raise your feet to clear the deck. Sit back, lower the bar and enjoy the ride! Chair speeds up after leaving terminal. **No horseplay!**

Approaching the top you will see signs on the towers to:

CHECK CLOTHING
PREPARE TO UNLOAD
RAISE BAR

Chair will slow when entering the terminal but won't stop or slow further unless requested or if there is a problem disembarking.

Raise your feet when approaching deck. Stand up at the **UNLOAD HERE** sign and walk quickly forward following arrows. Pick up your bike that the operator will have unloaded. Enjoy your ride, the views and the beautiful Lodge at Sunspot.
