MOUNTAIN BIKE CHECKLIST

The trails of Trestle Bike Park are rough and demanding on both the bike and the body. Before riding always inspect your equipment or have it checked by a qualified bike mechanic.

- Ensure your helmet is in good shape and properly adjusted.
- Inspect bike frame for cracks, damaged or dented areas.
- Ensure you have sufficient brake pads to stop your bike while descending.
- Front and rear axles (skewers) should be tight.
- Headset and stem must be secure with no looseness or play.
- Check that your tires are in good condition, with no tears or cuts including in the sidewall.
- Handle bar and handle grips must be tight and unable to spin. Seat and seat post need to be fastened securely.

IF YOU ARE NOT COMPLETELY FAMILIAR WITH YOUR BIKE AND ITS VARIOUS COMPONENTS, THESE CHECKLIST ITEMS, OR IF YOU HAVE ANY DOUBT AS TO YOUR BIKE'S CONDITION, WE HIGHLY RECOMMEND YOU CHECK WITH A QUALIFIED BIKE MECHANIC FOR FURTHER ADVICE.

RIDE SMART

SLOW DOWN BEFORE YOU SPEED UP. Crashes can happen on your first lap. Ride the trail multiple times to get familiar with the features and equipment you're on so you can more confidently increase your skills without exceeding your limits. Jumping skills are required for freeride trails.

- PRE-RIDE:** Warm up the brain and body and inspect the trail at low speed.
- RE-RIDE:** Lap the trail a few times and get to know the flow of the features.
- FREE-RIDE:** Start small and work your way up to faster speeds and larger features.

Due to fire danger and health, smoking is prohibited both on-mountain, on chairlifts, in lift lines and in Winter Park Resort facilities. CAUTION! FALLING TREES AND LIMBS.
 Not all trails are checked or cleared on a continual basis. Notify Bike Patrol if you see an obstacle or hazard on the trail. Look ahead and ride with a partner.
